---

## PROJECTS

**Dinner Party App** | [https://github.com/agmorrow/Project1\\_DinnerParty](https://github.com/agmorrow/Project1_DinnerParty) [https://agmorrow.github.io/Project1\\_DinnerParty/](https://agmorrow.github.io/Project1_DinnerParty/)  
Scrum Master

- A web application for the indecisive person to search for food recipes and cocktails
- Worked with team to effectively fetch CocktailDB and MealDB to display recipes. Personally designed the search page
- HTML, CSS, JavaScript, API Request, LocalStorage

**The Office Quiz** | [https://github.com/agmorrow/CodeQuiz\\_Week4\\_AGM](https://github.com/agmorrow/CodeQuiz_Week4_AGM) [https://agmorrow.github.io/CodeQuiz\\_Week4\\_AGM/](https://agmorrow.github.io/CodeQuiz_Week4_AGM/)  
Creator

- A web application where the user must race the clock to answer as many questions correctly before time runs out
- Utilized LocalStorage to store high scores so user can save and see past users scores
- HTML, CSS, JavaScript, LocalStorage

**Weather Dashboard** | [https://github.com/agmorrow/WeatherDashboard\\_Week6\\_AGM](https://github.com/agmorrow/WeatherDashboard_Week6_AGM)  
[https://agmorrow.github.io/WeatherDashboard\\_Week6\\_AGM/](https://agmorrow.github.io/WeatherDashboard_Week6_AGM/)  
Creator

- A web application which allows user to search for weather for a specific city and shows future forecast
- API Request to OpenWeatherAPI for current and future forecast. LocalStorage to see past searches
- HTML, CSS, JavaScript, API, LocalStorage

---

## EXPERIENCE

### Colorado Christian University

2020 - present

Enrollment Counselor

- Support potential students wanting to go back to school to finish their degree or start their degree
- Present information about the university to potential students and assist with any roadblocks
- Streamline personal organizational methods to increase productivity

### Denver Rescue Mission

2016- 2020
